IAOM 2018
Latin American District Meeting

Stephen Doyle, IAOM President

Panama City, Panama 6-8, 2018
functional beauty and beautiful function

One of the outstanding mills in Southeast United States with one of the outstanding pneumatic conveying systems in the milling industry. The mill is Interstate Milling Company of Charlotte, North Carolina. The system is by Kice, typical of nearly 100 similar pneumatic systems now operating in some 40 mills throughout North America. Interstate is the fourth mill in the same group of mills completely converted to Pneumatic by Kice, plus scores

Rolling bearings

Pneumatic Conveying of Mill Stocks
