

Getting to know IMAS North America...

The technology
that understands
the language of nature

imas  ***NORTH AMERICA***

What a stunning location for a meeting!

Q. How do you know the toothbrush was invented in Montana?

A. If it was invented anywhere else, it would have been called a teethbrush.

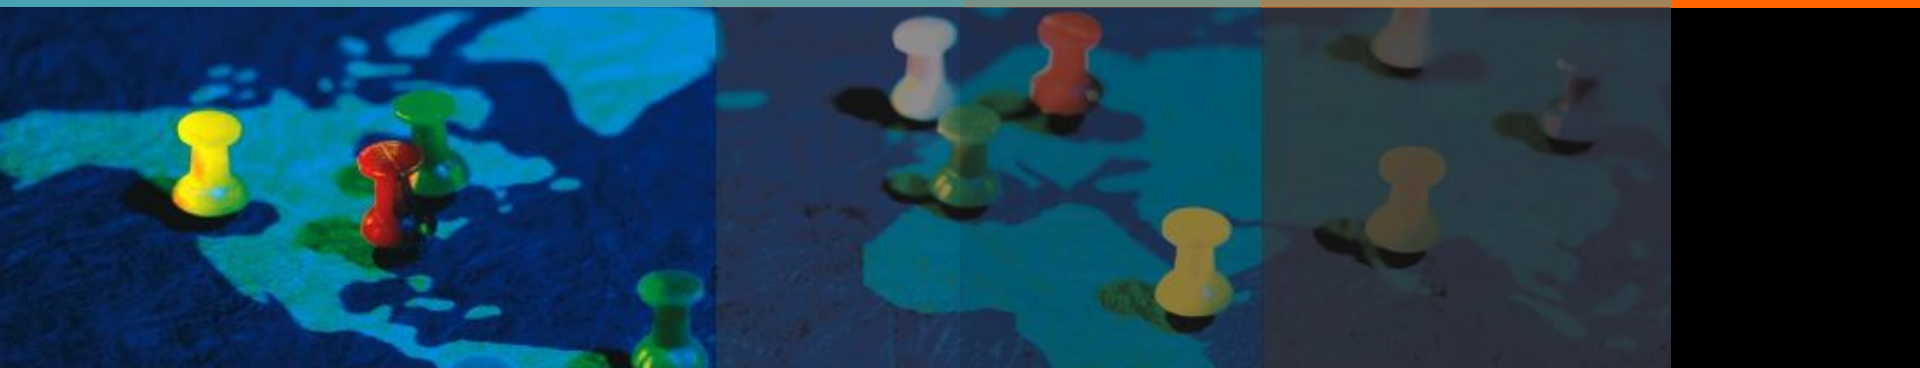

Firm Profile

- IMAS was founded in 1989.
- IMAS establishes flour, semolina, corn flour and feed mills throughout the world.
- We design mill flows and buildings, equipment, and provide all aspects of factory construction and commissioning.
- We own and operate our own mills. Thus our workers and designers have real hands-on experience.

Firm Profile

- We are a part of Ittifak Holding, that operates in 20 sectors with more than 150 facilities throughout the world.
- Ittifak is one of the 20 largest companies in Turkey and is financially capable of handling very large projects.
- We operate under ISO Standards.

Mission Statement

Our mission is to obtain unconditional customer satisfaction, while building continuous confidence about our products and our company.

IMAS North America was officially launched at the April 2010 IAOM show in Las Vegas to better serve this important market.

Milleral and Viteral brands

IMAS North America brings two brands of products to the market:

- Milleral – complete solutions including equipment, systems and entire plants for the wheat and corn flour milling industries.
- Viteral - complete solutions including equipment, systems and entire plants for the feed milling industry.

Miller
