100 YEAR OF MILLING HISTORY

QUINTO DI TREVISO - ITALY

A PATH STARTED 100 YEARS AGO

During the last century, the Group's history developed itself following the interweaving stories of the three single companies. These paths have led to the current Golfetto Sangati, a company that represents the arrival point of this long journey that started in the Twenties.

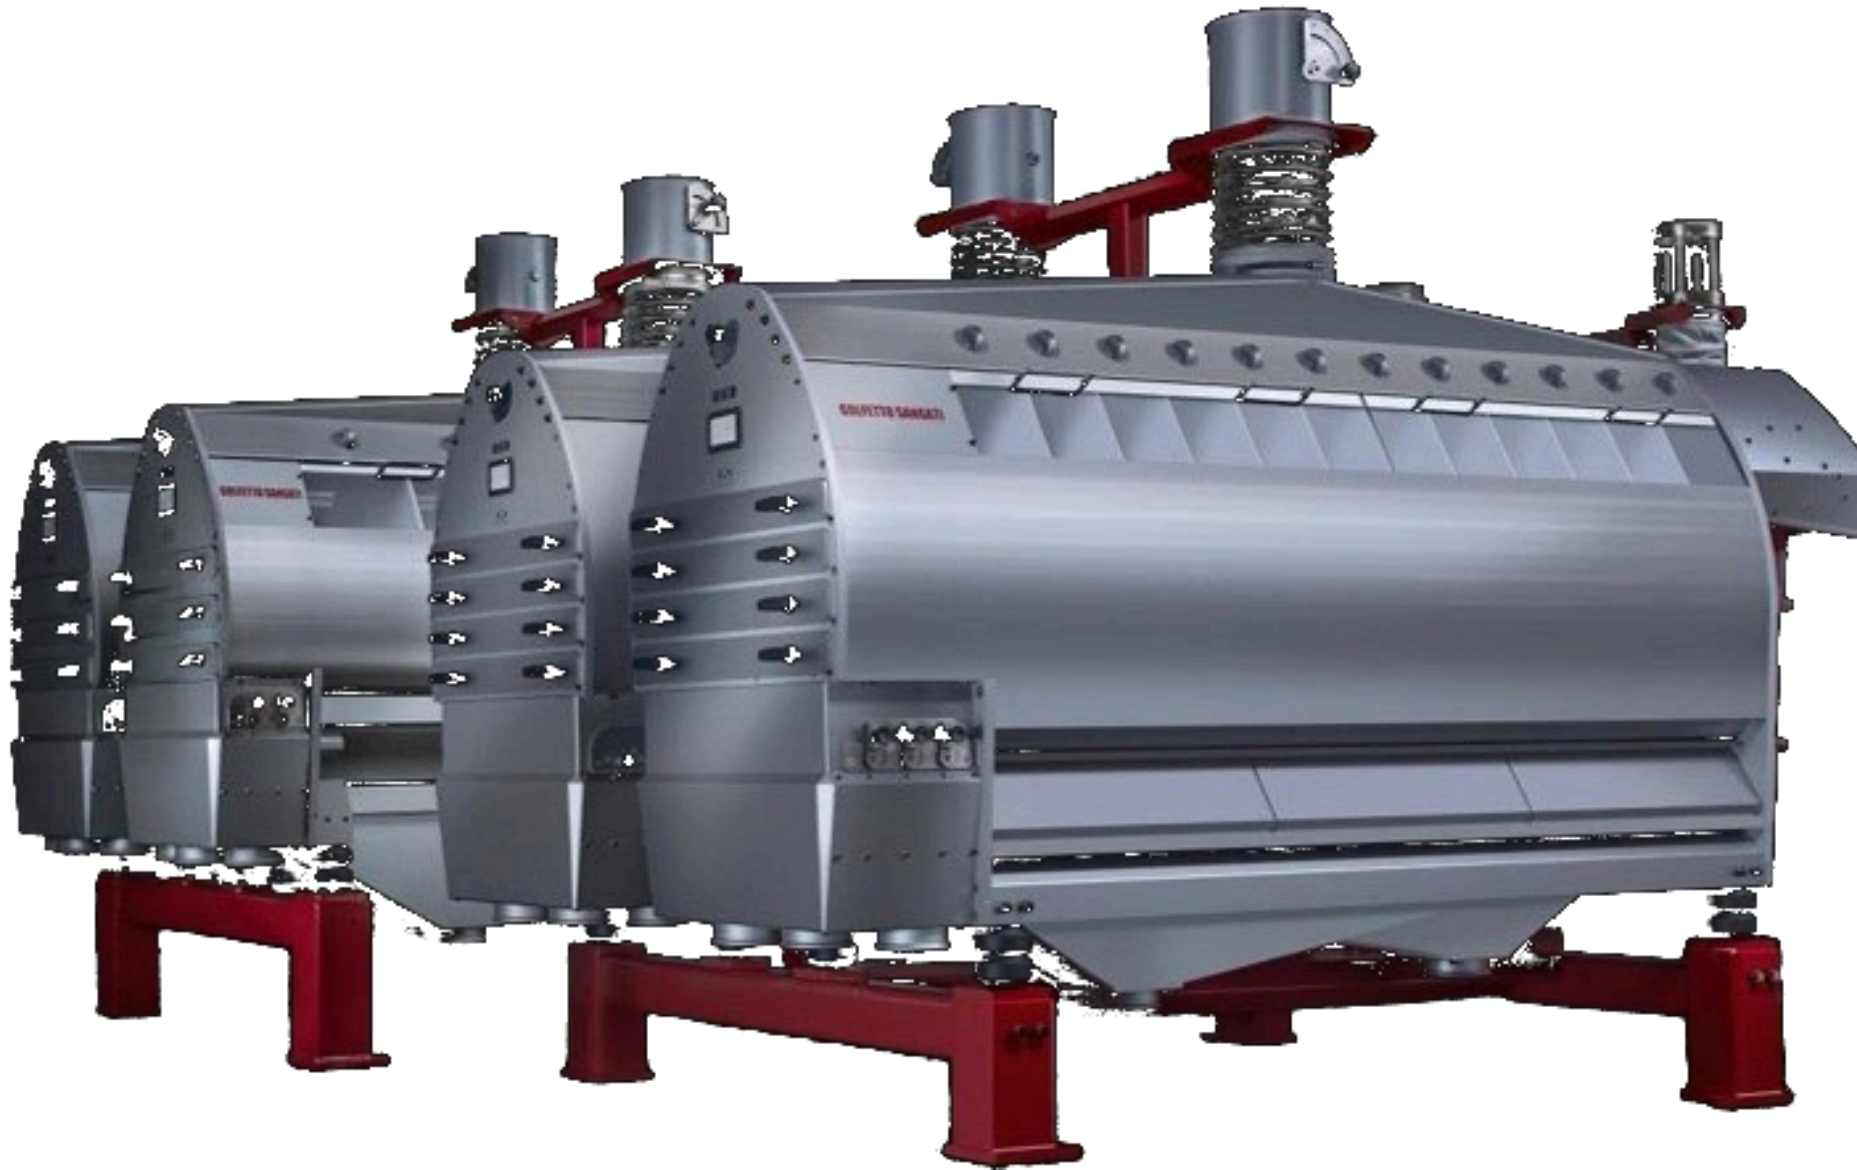

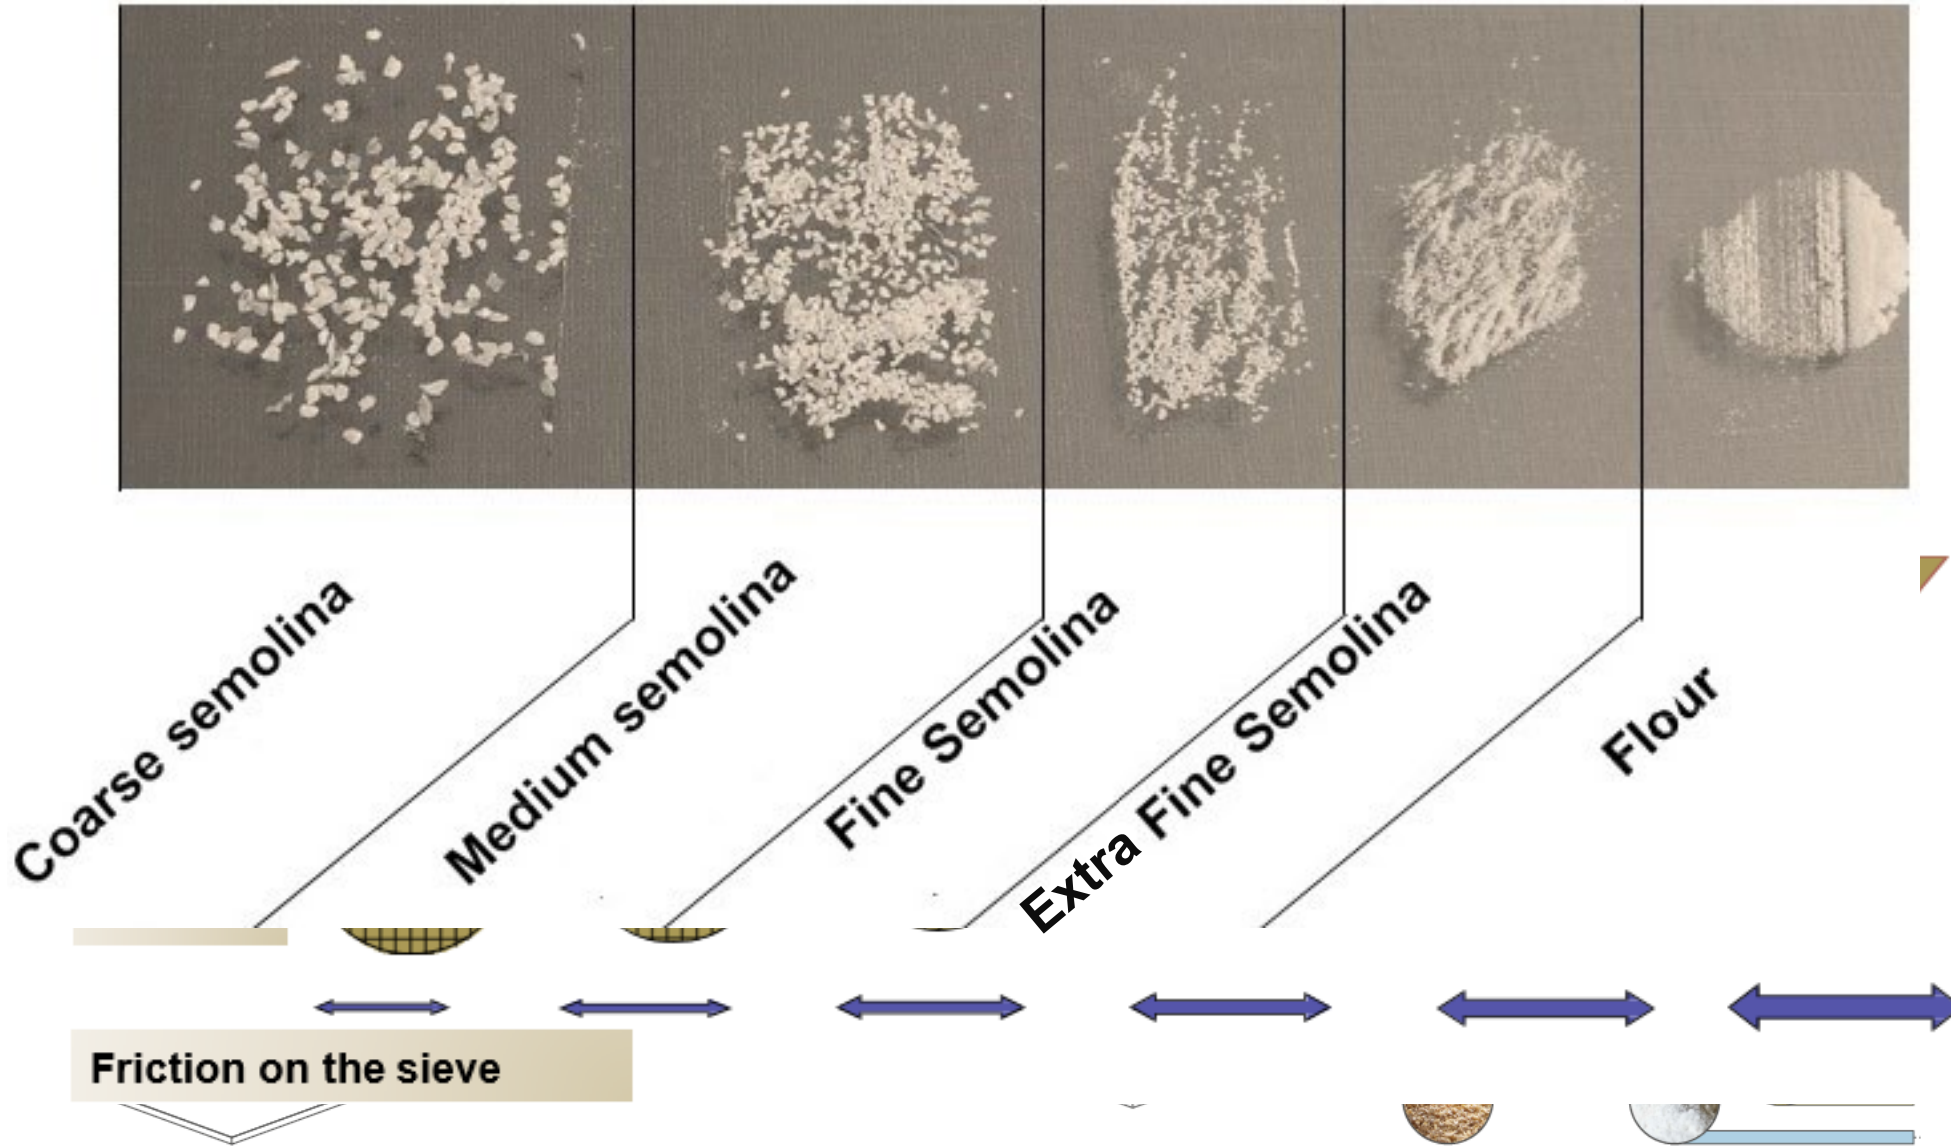

GOLFETTO SANGATI INDUSTRIES:
TECHNOLOGY APPLIED TO THE MILLING
AND THE ANIMAL FEED INDUSTRIES, **ONE**
OF THE WORLDWIDE LEADING COMPANIES
IN THESE MARKETS. MACHINES AND
COMPLETE PLANTS CAPABLE OF TAKING
CARE OF THE WHOLE PROCESS THROUGH
ALL ITS STAGES, THOROUGHLY AND
EFFICIENTLY MEETING EVEN THE MOST
DEMANDING REQUIREMENTS.

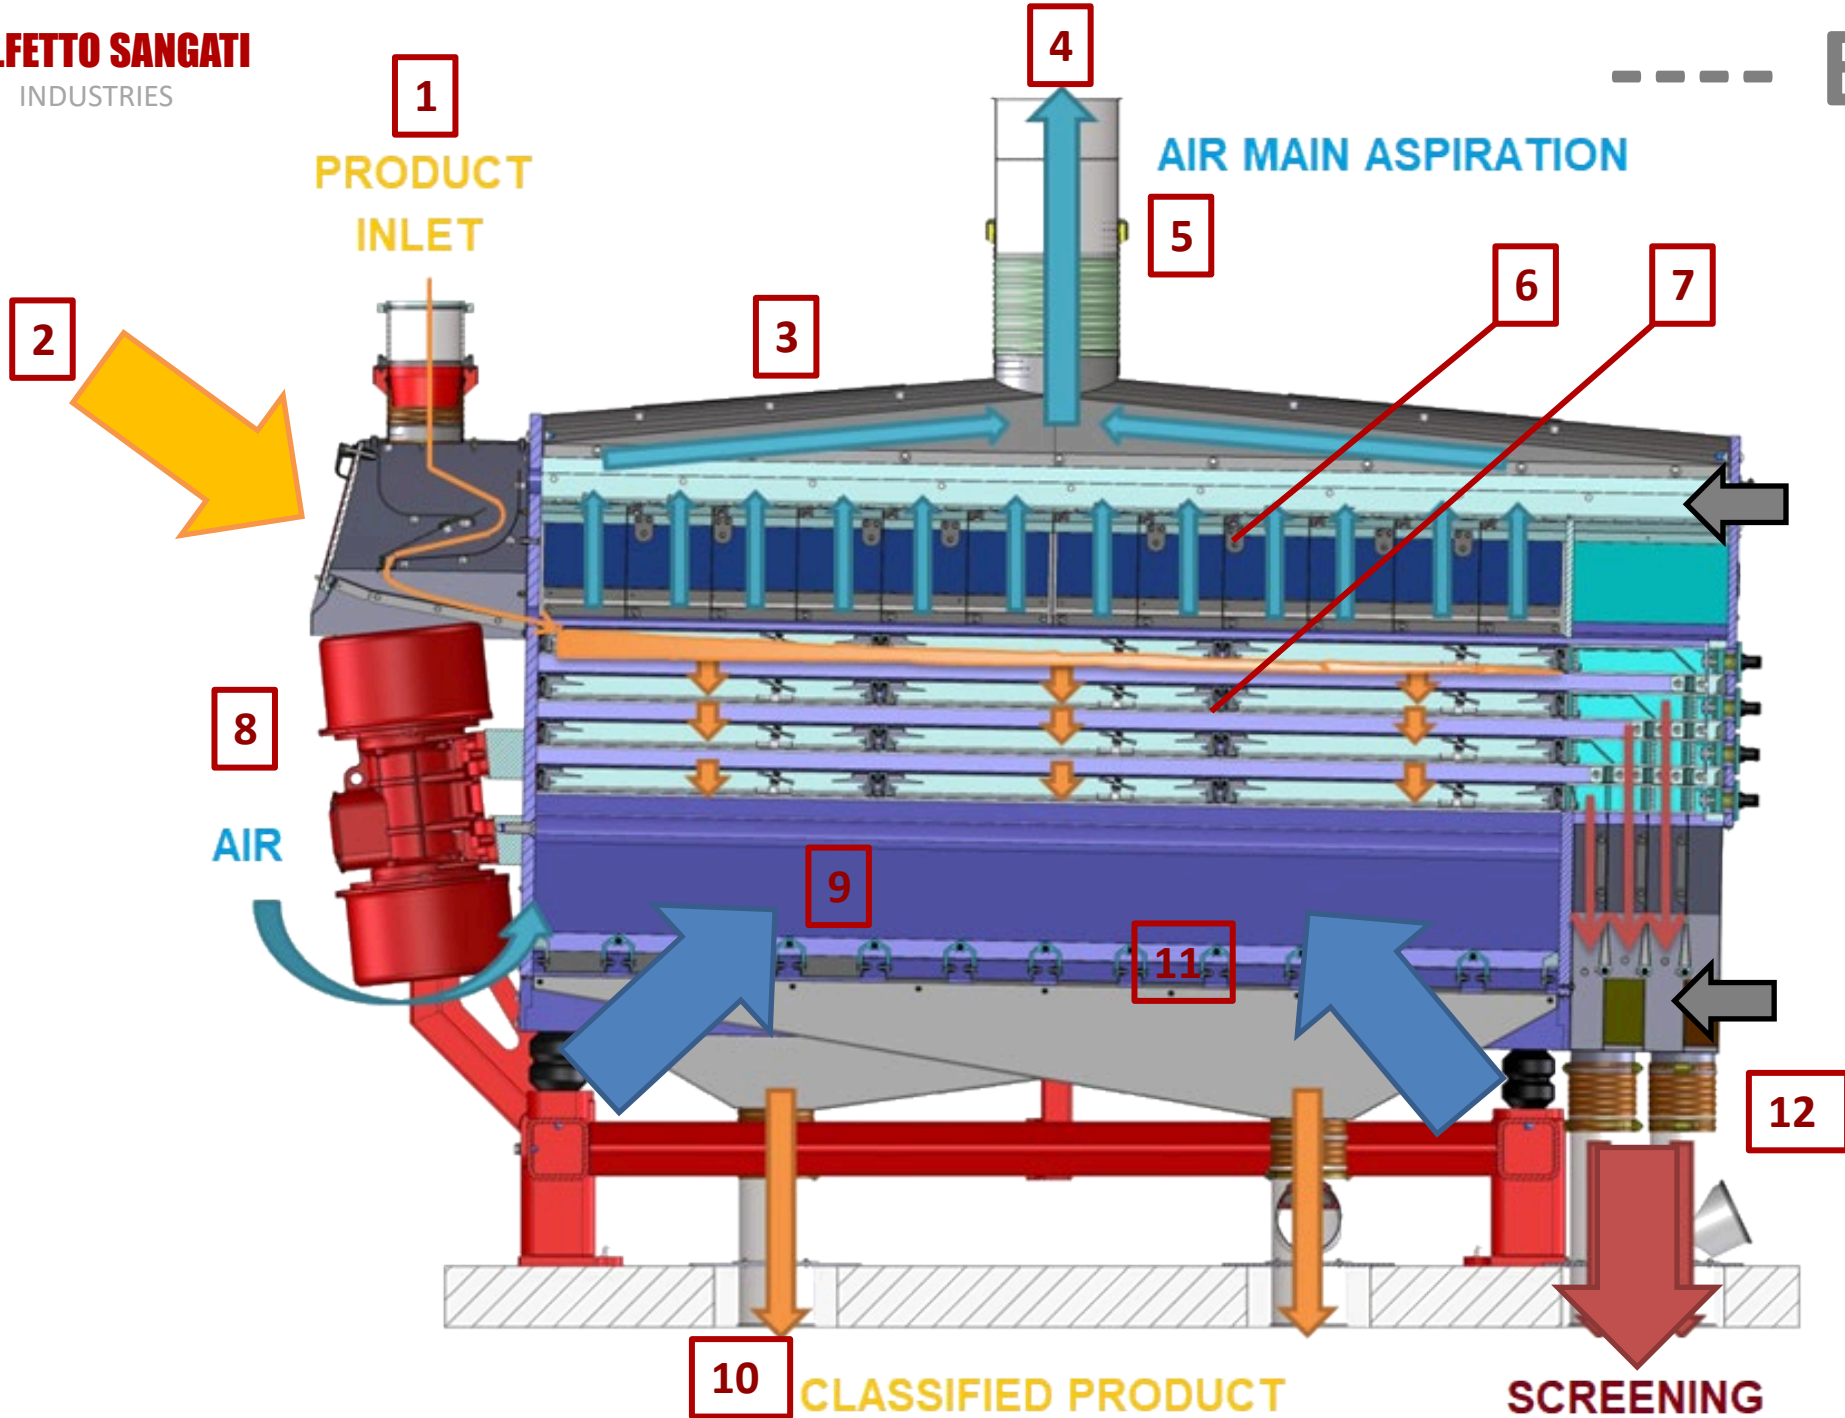

SEMOLINA HP 55

---- Easy Plant Layout

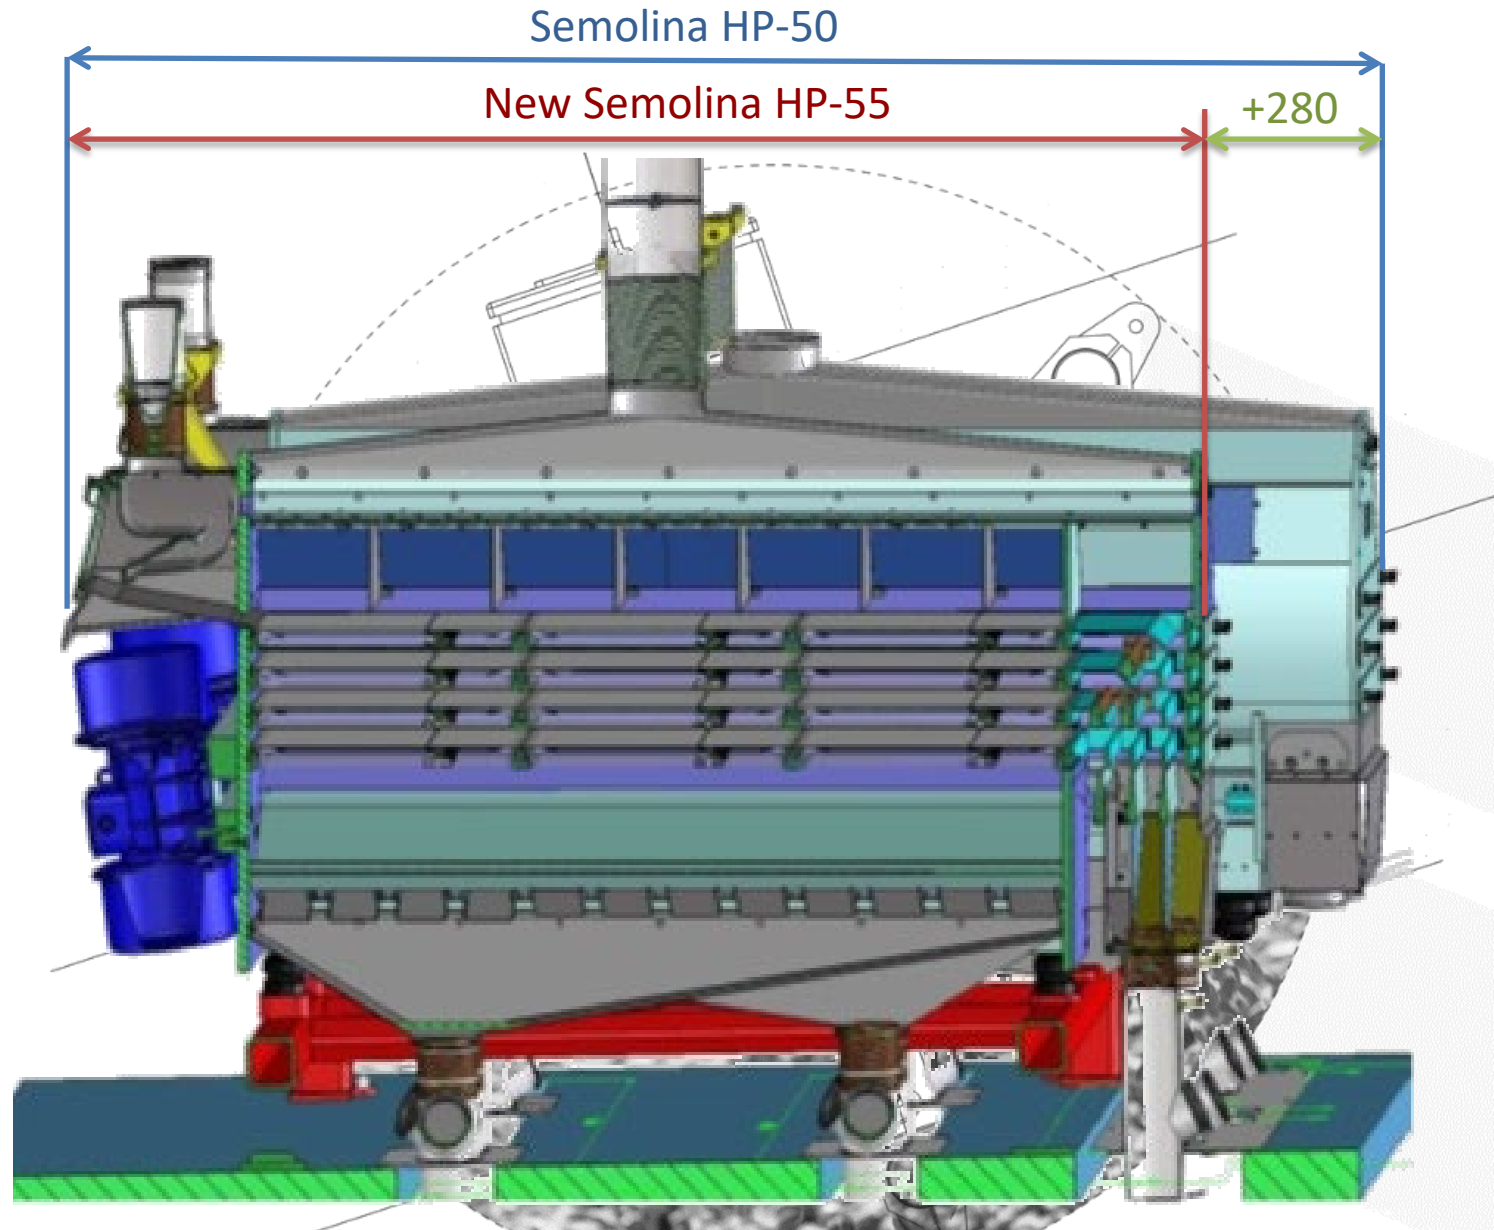

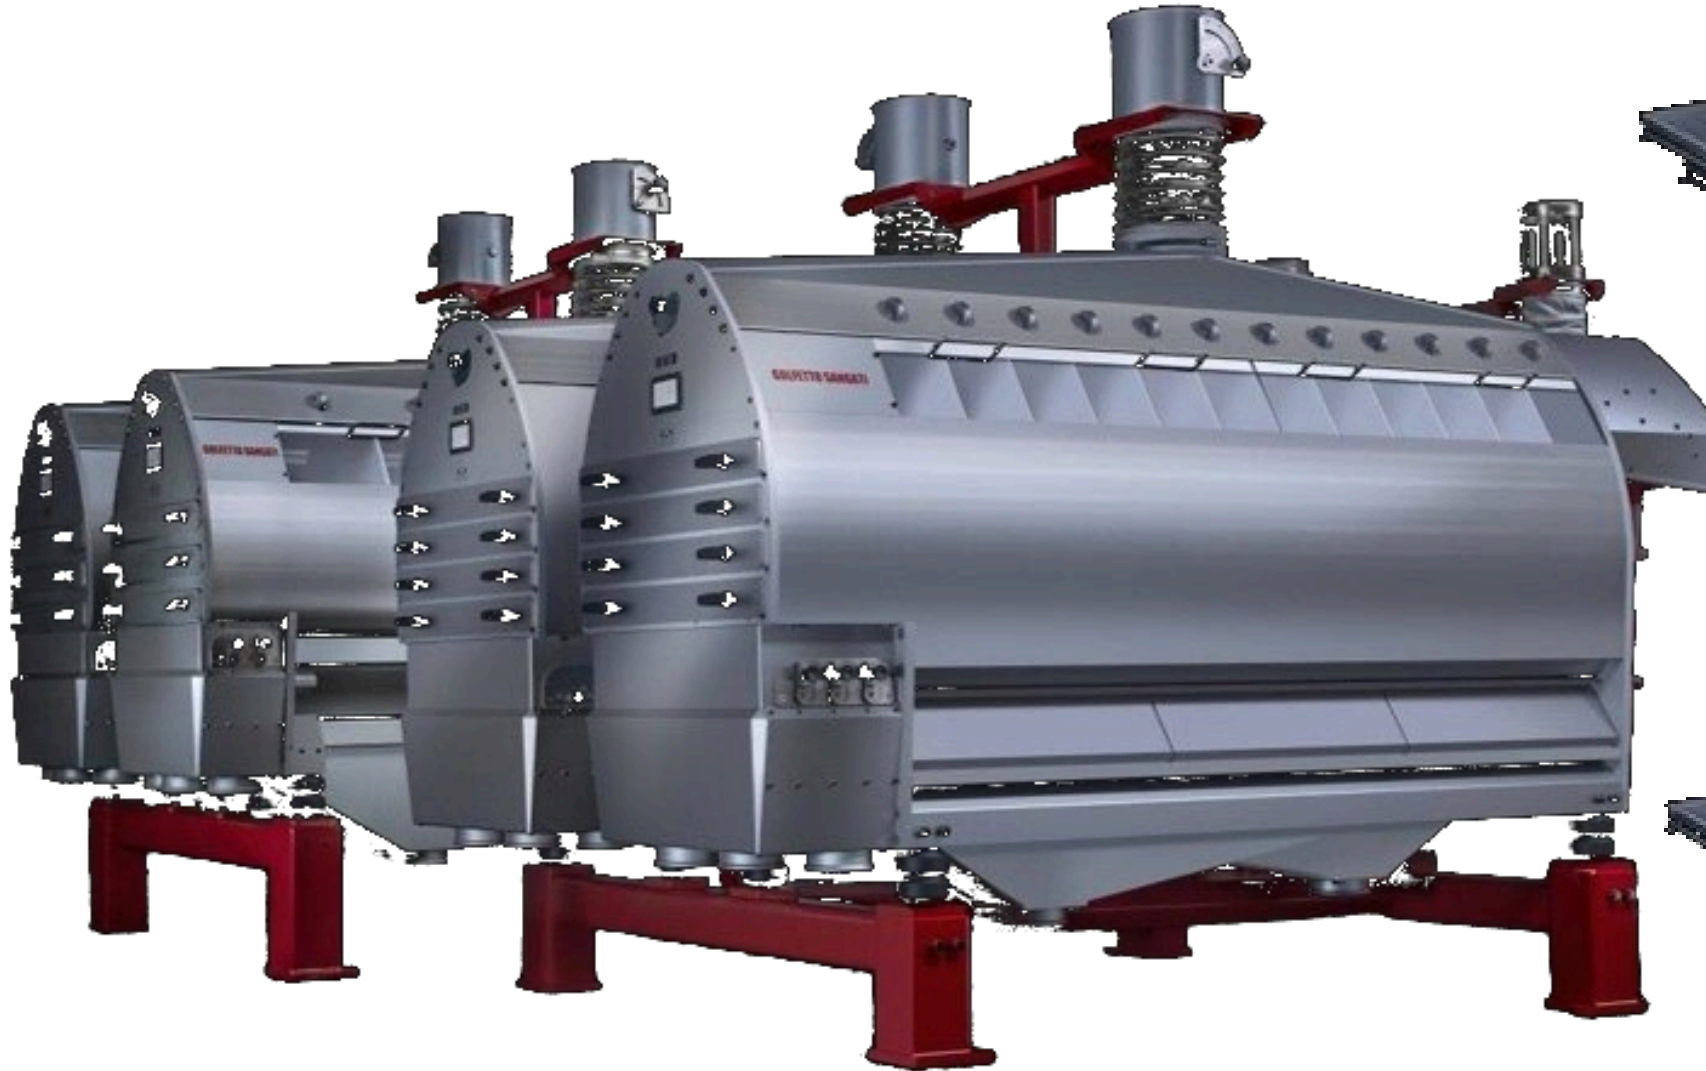

- | | |
|----|----------------------------|
| 1 | Product inlet |
| 2 | Product pre-separating |
| 3 | Air duct opening by hinges |
| 4 | Aspiration connection |
| 5 | Main butterfly valve |
| 6 | Air regulator |
| 7 | Sieve box |
| 8 | Vibro-Drive |
| 9 | Enclosed product room |
| 10 | Outlet chut (throughs) |
| 11 | Product guide flap |

SEMOLINA KPSG

HP-55

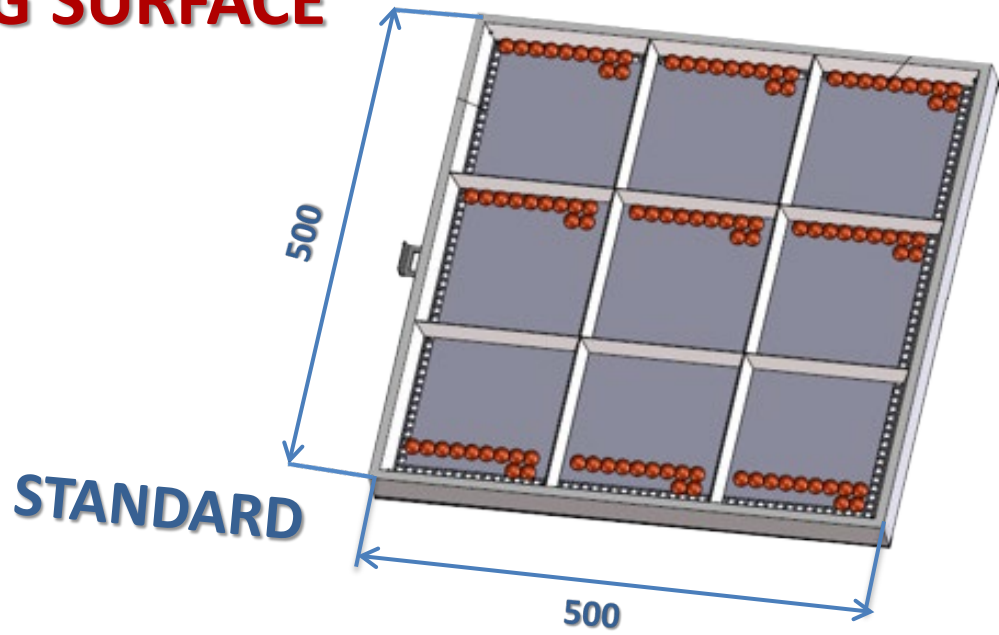

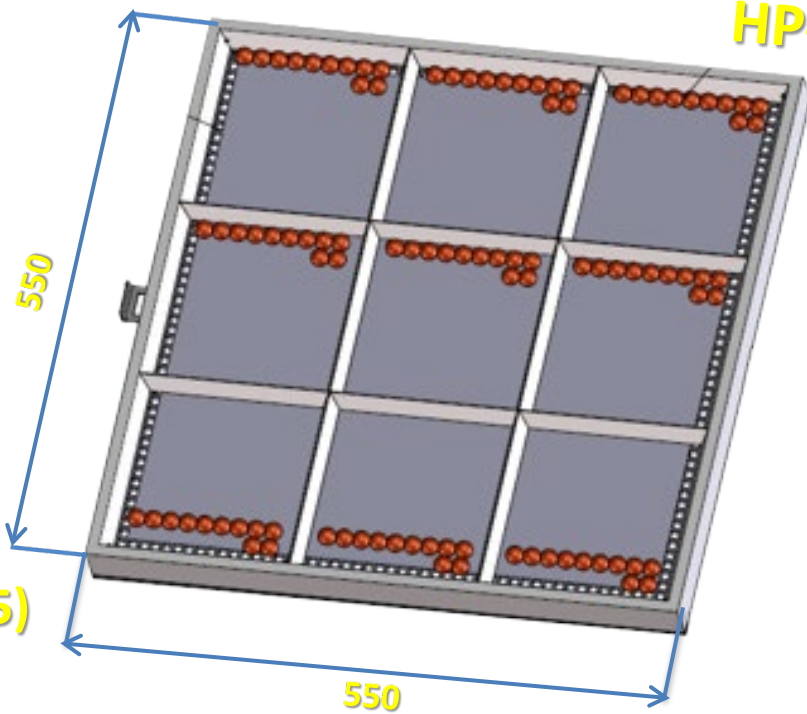

---- **Highlight**

INCREASE SIEVES DIMENSION

- 500x500 (Old Semolina HP-50)

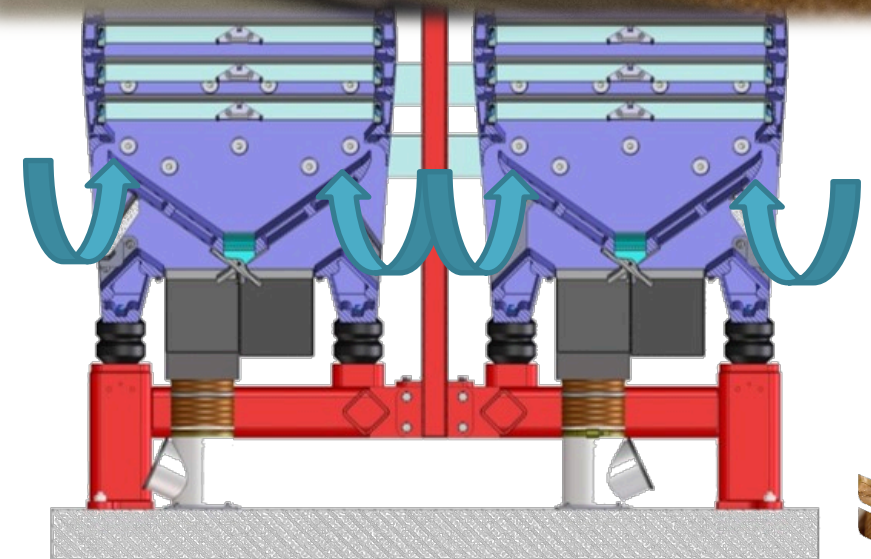

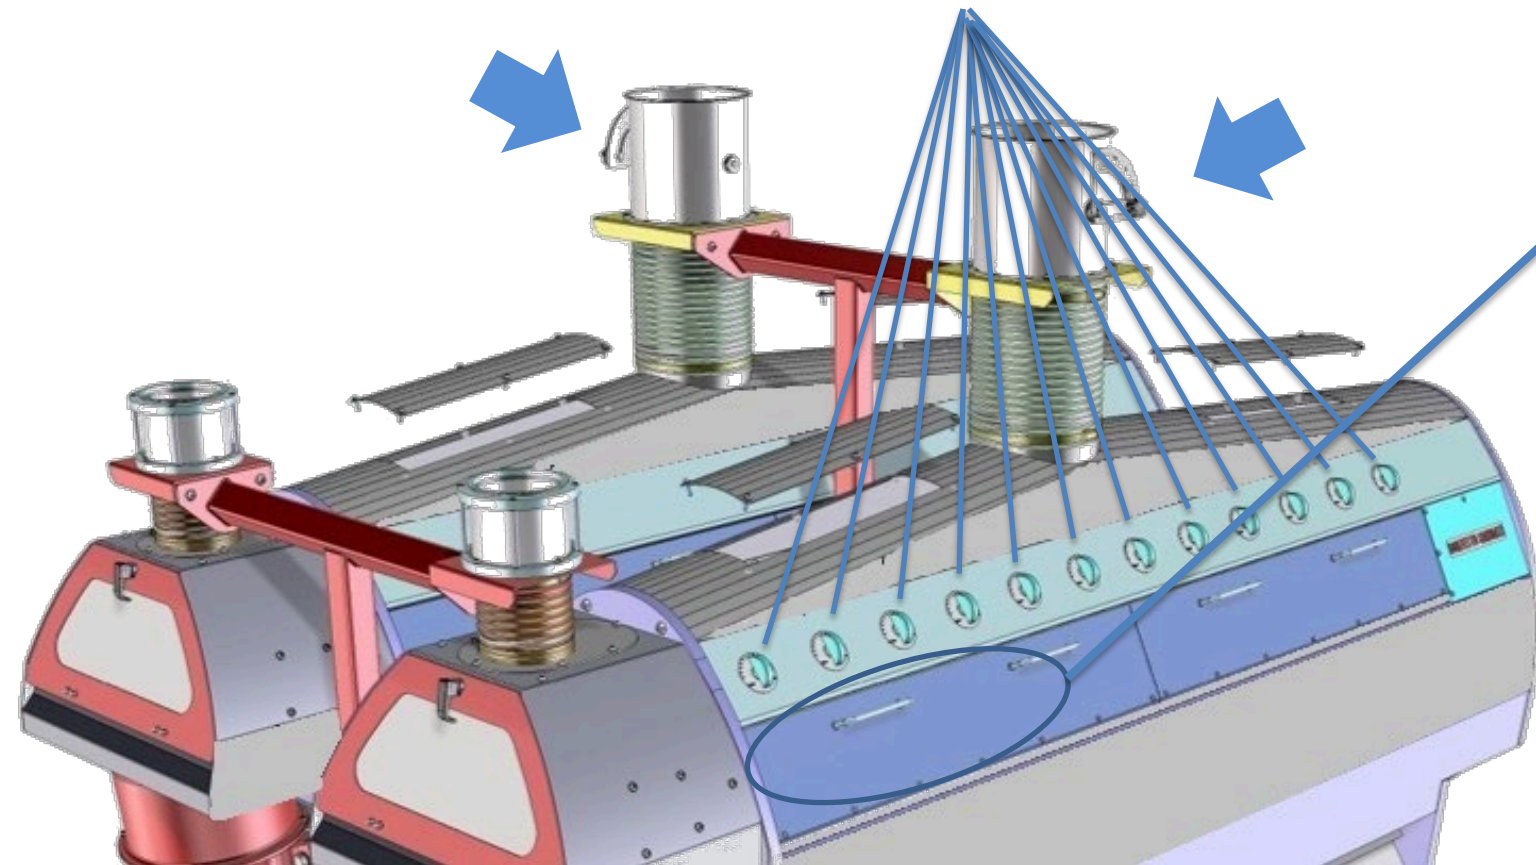

- 550x550 (New Semolina HP-55)

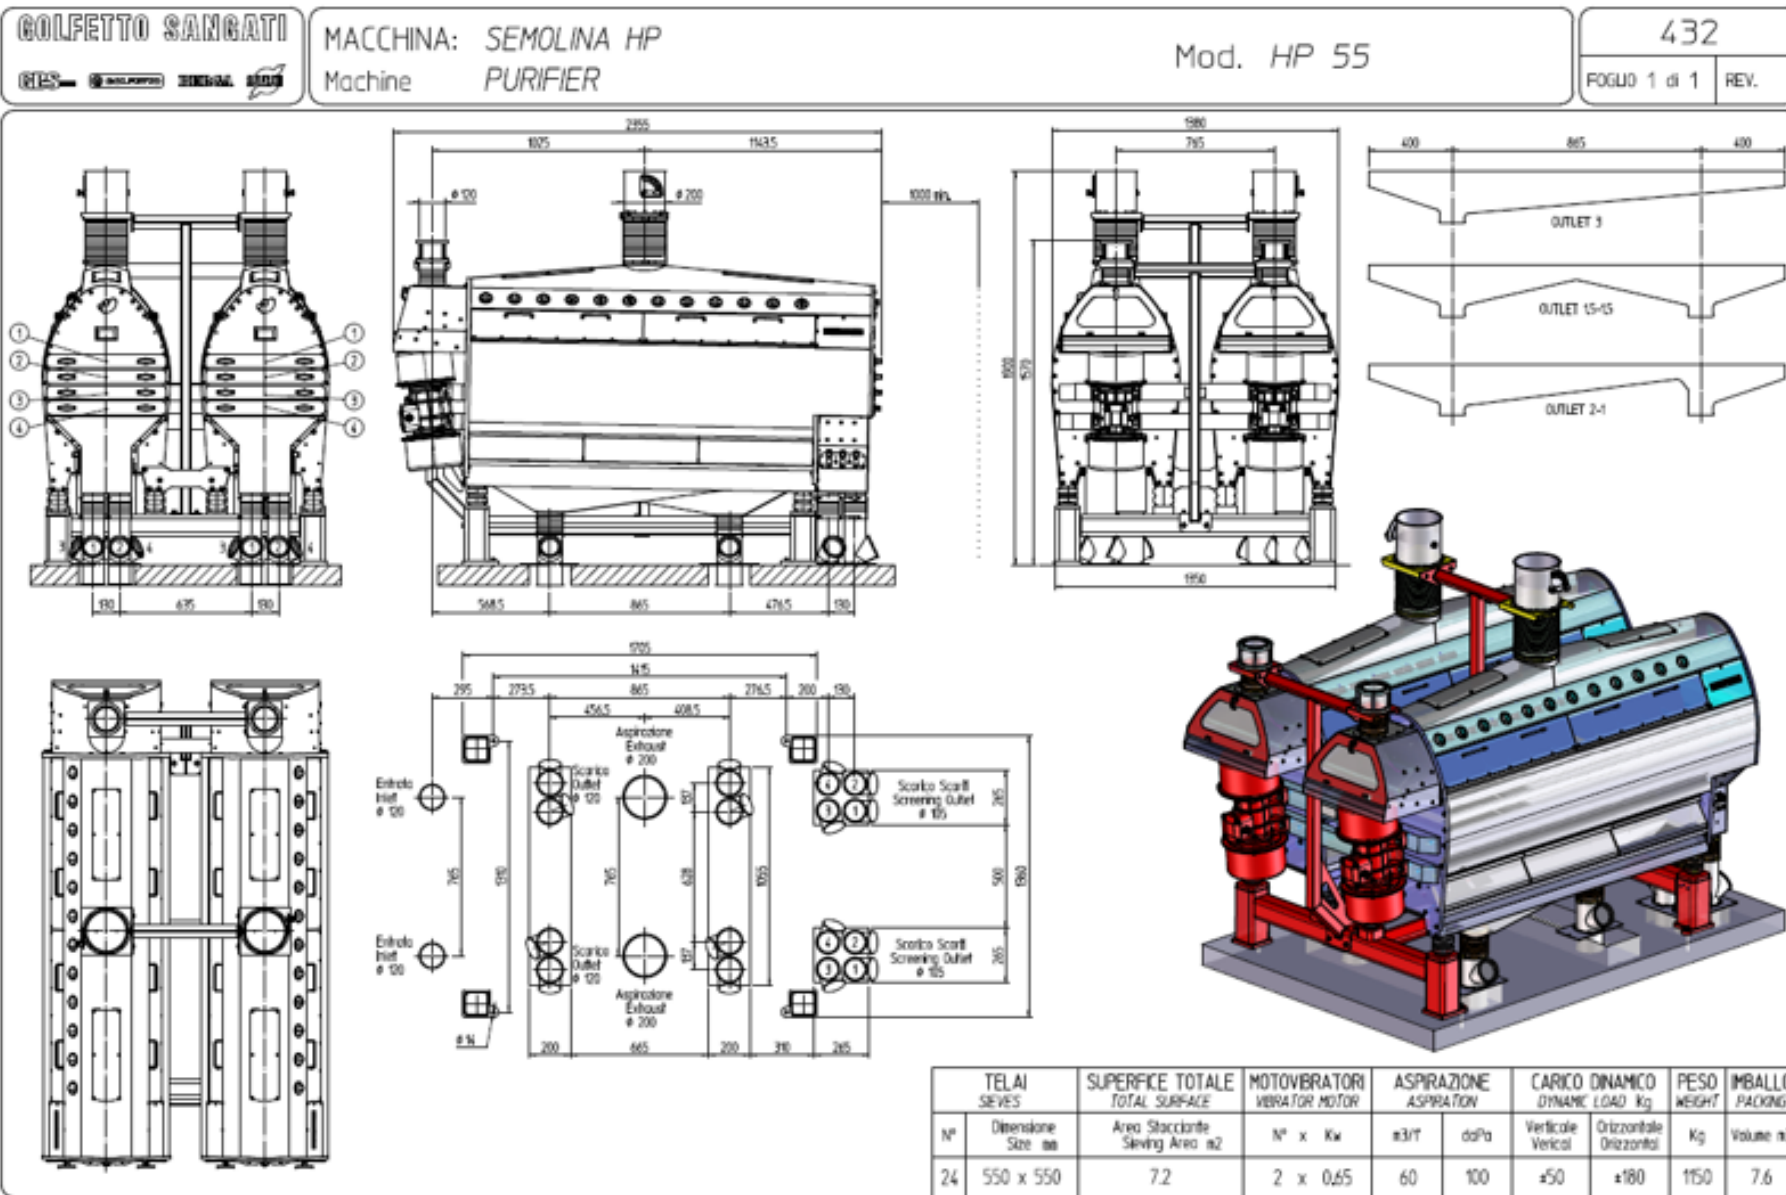

+ 23% SIFTING SURFACE

ATTENTION TO PRODUCTION DETAILS AND FOOD SAFETY

- **Better air distribution** on the rows of sieves
- **No contact of the product** with contaminating parts inside and outside the machine in order to avoid contamination of the product;
- **Quick opening of the suction chamber** for better and constant cleaning;
- **13 independent air adjustment points** for each section guarantee perfect regulation of the air flow inside the sifting chambers;
