Call for Educational Presentations

128th Annual IAOM Conference & Expo
Salt Lake City, Utah, USA – April 15-19, 2024

You are invited to submit an application (or make a recommendation) for an Educational Presentation at the 128th Annual IAOM Conference & Expo in Salt Lake City, Utah. You have the opportunity to contribute to the profession and increase your visibility and credibility with fellow professionals by making a presentation in one of five areas: **technical operations, employee management, product protection, and facility management.**

The IAOM Annual Conference is the premier education event in the milling and grain processing industries. The 2024 Conference offers **YOU** an exciting opportunity to address the industry's most active and influential professionals. All education sessions are designed to be non-commercial in content, and to address industry innovations, standards and trends.

Submission Process

Your programming idea must be received by **August 18, 2023**, to allow review by the IAOM Program Committee. Your entry should include the following:

- A completed application, and
- An approximate 75-word description of the topic of your presentation (as an attachment).
- OR – fill out the form at: <https://www.iaom.org/annualmeeting/call-for-papers/>

Speaker Privileges and Obligations

Speakers who represent a milling company will be provided with a complimentary conference registration, which includes all sessions, exhibits, exhibit hall lunches, receptions, and refreshment breaks. Speakers are required to submit a written article on their presentation for publication in IAOM's *International Miller*, and sign a release allowing IAOM to record and distribute their presentation through the members-only section of the IAOM website. Further information and guidelines will be sent to selected presenters.

Educational Presentation Subject Areas

The IAOM Conference format features presentations within the following five broad categories. For the 2024 Conference, IAOM will be seeking presenters to fill twelve, 30-minute time slots for the four simultaneous tracks. The educational sessions will be held on Wednesday, April 17 and Thursday, April 18. IAOM anticipates audiences of approximately 50-100 for each of the presentations.

Employee Management (EM) = Covers aspects of employee management (i.e. recruitment, retention, motivation, safety).

Facility Management (FM) = Covers aspects of operations related to facility design, construction, maintenance and equipment evaluation and acquisition.

Product Protection (PP) = Covers aspects of sanitation, food protection, food safety, finished product testing, storage and transportation.

Technical Operations (TO) = Covers aspects related to the technical aspects of raw product evaluation, testing, storage and processing.
